

Directorate of Industries  
Government of Maharashtra

# IGNITE Maharashtra 1.0

Industry - Government Networking for Inclusive Transformation and  
Empowerment

# Executive summary

Maharashtra stands out as a powerhouse in industrial development, making a substantial contribution of 14% to the nation's GDP. Notably, it holds a significant 17% share in the country's total exports and boasts the highest Udyam Registrations, indicative of a thriving ecosystem that nurtures entrepreneurship and MSMEs.

In line with this commitment to bolster the growth of MSMEs, the Maharashtra Industries Department has strategically planned a District-Level Awareness Campaign. This comprehensive initiative spans across all the 36 districts and unfold over a one-day event between October 5th and November 9th, 2023. The primary objective of the initiative is to educate and inform MSMEs about the facilitation frameworks, policies, and schemes put forth by both state and central governments.

The workshops will feature distinguished speakers from the Industries Department, key organizations such as CGTMSE, IDBI, SIDBI, FIEO, ONDC, MIDC, QCI, ONDC and Export Promotion Councils, alongside representatives from various government departments such as DGFT, India Post along with representatives from Industry associations and notable exporters/ entrepreneurs. These workshops are designed to promote networking, knowledge sharing, and collaborative problem-solving, creating a dynamic space for meaningful industry-connects among entrepreneurs, government officials and industry experts.

Through these workshops, we intend to create a platform for sharing best practices, addressing challenges and exploring opportunities for MSMEs in Maharashtra. The resulting booklet will encapsulate the event's highlights and best practices across the state's districts.

“

“Inclusive industrial growth is our mission. We prioritize policies that empower all, promote entrepreneurship, and support sustainability. Our goal is an equitable society where industrial growth benefits every citizen. Together, we're shaping a prosperous future for Maharashtra.”
